Pre-Sterilization Tests Bowie-Dick and Helix

Type 2 Chemical Indicators

Tuttnauer offers a wide range of infection control products including kits to meet regulatory requirements and validate the dental reprocessing quality.

WTL198-0159

Helix-PCD + Bowie-Dick simulation test strips kit

- For monitoring vacuum-assisted steam sterilizers
- Autoclave release for hollow loads in large and small vacuum-assisted steam sterilizers
- Conditions: Bowie-Dick cycle, 3.5 minutes at 134 °C

WTL198-0161

Helix-PCD + chemical indicator test strips kit

- For safe release of hollow loads
- Process Challenge Device for Steam sterilization process control
- Conditions: 18 mins at 134 °C

WTL198-0158

Bowie-Dick test pack chemical indicator

- For detecting inadequate air removal and steam penetration
- Test pack for vacuum-assisted steam sterilizers
- Conditions: 16.9 mins at 121 °C; 4 mins at 132 °C; 3.5 minutes at 134 °C

WTL198-0160

Helix-PCD + chemical indicator test strips kit

- For safe release of hollow loads
- Process Challenge Device for steam sterilization processes control
- Conditions: 3.5 mins at 134 °C

Cost-effective and reliable autoclave monitoring
before and during sterilization cycles

Clean and Shine your Autoclave Chamber with our maintenance products
