HSG Pre & Post Vacuum - Medium Size Autoclave
Medical Center Autoclaves
Hospital Grade Performance for OR and Large Clinics

The HSG autoclave line includes 85 liter and 160 liter autoclaves that are ideal for medical centers and large clinics. HSG autoclaves provide hospital grade sterilization and a medium loading capacity at a cost-effective price that meets the highest international standards.

As a family owned business Tuttnauer has manufactured infection control products for over 89 years that have developed a reputation for the quality, high performance, sophisticated features, and the ability to satisfy customers’ expectations. Tuttnauer’s sterilization and infection control products are trusted at over 350,000 autoclave installations throughout the world.

- COMPACT
- GREEN
- PLUG & PLAY
- EASY TO MOVE - EASY TO INSTALL
- COST-EFFECTIVE PRICING

Pre & Post Vacuum Performance

Pre & Post vacuum performance is achieved with a built-in vacuum pump used for fractionated pre vacuum air removal eliminating air pockets from all load types and maximizing efficient steam penetration throughout the entire load. After the sterilization stage the vacuum pump is used for post-vacuum drying.
**COMPACT**
Narrow Design - fits through standard doorways
Minimal Footprint - high capacity autoclave which does not require a lot of space

**GREEN**
Water Saving System – use only 5 liters of water a day (optional - WS model)
Sleep Mode - allows user to set time to switch sterilizer to minimum energy consumption
Low Rate Cycle - you can run your sterilizer when electrical power costs are low, like after work hours, by setting a delayed start time

**PLUG & PLAY**
Independent Mode - no need to connect the autoclave to the building utilities for distilled water, tap water and drain (optional - WS model)

**EASY TO MOVE - EASY TO INSTALL**
Mobility – easy to move autoclave to new locations due to built-in swivel wheels
Installation Made Easy – connect to utilities with flexible piping
Adjustable Floor Layout – due to mobility and easy installation medical centers can easily adjust floor layout

**COST EFFECTIVE PRICING**
Efficient Chamber Design – rounded chamber allows for economic pricing without compromising sterilization performance

---

**Mini CSSD for Operating Rooms**

(A) Washer Disinfector, (B) 5075HSG, (C) 3870HSG, (D) Steri-Center Packing Table, (E) Sealing Machine
Innovative Control System

Dynamic Multi-Color Display
A bright multicolor LCD panel for easy reading, even from a distance:

- Wheel rotates to indicate an active cycle
- Time remaining during Water Filling, Sterilization, and Drying stages is updated in real-time
- Multilingual interface (26 languages)

Digital Data on Your PC
Save cycle data files on your PC with no additional software or specialized hardware

R.PC.R Software
Automatic Recording of Cycle Information to Your PC

Reporting You Can Rely On
- Automatic cycle data recording to any PC on your network
- Convenient access to graphs & tables
- Easily generate PDF reports
- No need to file printouts, saving you time

Be in Control with Real-Time Remote Monitoring
- See the real-time autoclave display on your PC
- Monitor all activity for up to 8 autoclaves

With R.P.C.R you can see: Graphs of the cycle data, numeric cycle data, cycle print-outs, measured values table, table of parameters.

R.P.C.R Software is optional.
**Water Saving System**

Huge water savings are achieved with the optional highly efficient water recycling system (HSG-WS model) that consumes only 5 liters of tap water per day.

**Utility Connection Features**

**Dependent on Utilities**
The HSG can be operated as a stationary sterilizer connected to building utilities for distilled water, tap water, drain and electricity.

**Independent of Utilities**
The HSG-WS comes with a standard “Plug and Play” option to operate only with an electric power connection. In this mode there is no need to connect the autoclave to the building utilities for distilled water, tap water and drain. With this option it is also possible to connect to utilities.

**Safety & Reliable**

- Double locking safety device prevents door from opening while chamber is pressurized
- Control lock-out switch prevents starting a cycle if door is not properly locked
- Control system protection prevents door from opening at high pressure and temperature
3870HSG - 85 Liter Chamber

The 3870 HSG is a hospital grade Class B autoclave, suitable for large medical & dental clinics, and operating rooms. Designed to be a fast cycle sterilizer that is mobile, operates 24 hours a day, and can optionally operate independent of building utilities.

- Automatic locking door
- Powerful built-in steam generator
- 316L Chamber & trays
